Name: Lorrie DeFrank

Comment:

Having visited Cumberland Island last week and seeing its pristine condition, I strongly believe it would be an abomination to develop it in any way, particularly by building private dwellings on the south end so near the campgrounds. The intrusions that would come with it (noise, garbage, traffic, concessions, infrastructure, etc.) would deteriorate the area quickly. This is a selfish request that should be denied.

Cumberland Island National Seashore is a treasure for all of us to enjoy. Please say no.
